

Joint Task Force on Networked Media

JT-NM ROADMAP OF NETWORKED MEDIA OPEN INTEROPERABILITY*

**See Dematerialized Facilities FAQ at JT-NM.org for more information. * JT-NM assumption as of July 2018 and will evolve over time. Visit JT-NM.org for the latest update. Feedback to jt-nm-info@videoservicesforum.org

The JT-NM Roadmap and what it shows

- Which standards and specifications enable the JT-NM Reference Architecture
- How the range of underlying technologies is expected to evolve
- When it is expected that those standards and specifications be widely available to build interoperable multi-vendor systems

Note that timescales shown are approximate and may vary depending on the speed of industry developments.
